1) Zakonom o zdravstvenom osiguranju (NN, br. 94/01. i 88/02.), članak 20., u okviru osnovnoga zdravstvenog osiguranja osiguravaju se osigurani za slučaj ozljede na radu i profesionalne bolesti u cijelosti. Prijašnjih godina poslodavci su bili obvezni osigurati zaposlene kod osiguravajućih društava za slučaj ozljede na radu te su podaci o broju ozljeda na radu bili manjkavi. Od 2002. koriste se podaci mjesecišnih izvješća liječnika primarne zdravstvene zaštite koji su u prvom kontaktu s ozlijedenima. Podaci o danima bolovanja zbog nesreće na radu za 2008. iskazuju se u novoosnovanom Hrvatskom zavodu za zdravstveno osiguranje zaštite zdravlja na radu.

2) Od srpnja 2004. izmjenama Zakona o radu, Zakona o porodnom dopustu i Zakona o zdravstvenom osiguranju vracena su prava korištenja porodnog dopusta do 3. godine djetetova života za slučaj rođenja blizanaca, trećeg i svakog sljedećeg djeteta, za sve korisnike toga prava bez obzira na to je li riječ o majci u radnom odnosu, nezaposlenoj majci ili majci koja obavlja samostalan djelatnost (NN, br. 30/04. i 31/04.). Nezaposlene majke imaju pravo na isplatu naknade do 1. godine djetetova života. Ponovno se uvodi pravo na skraćeno radno vrijeme s polovicom radnog vremena do 3. godine djetetova života za osobe koje imaju status radnika, a to pravo ne ostvaruju nezaposlene majke i majke koje obavljaju samostalan djelatnost.

3) Od 1. svibnja 2006. primjena novog Pravilnika o ortopedskim uređajima i pomagalima (novi način ovjere potvrda)

4) U skladu s člancima 2. i 7. Zakona o izmjenama i dopunama Zakona o zdravstvenom osiguranju (NN, br. 90/05.), osiguranicima Zavoda od 1. listopada 2005. smanjuje se pravo na naknadu troškova prijevoza te prestaje pravo na naknadu za pogrebne troškove, a od 3. kolovoza 2006. usvajanjem Zakona o obveznom zdravstvenom osiguranju ponovno se povećavaju prava na naknadu prijevoza pri korištenju zdravstvene zaštite.

1) Article 20 of the Health Insurance Act (NN, Nos. 94/01 and 88/02) which refers to the basic health insurance provides for full insurance of beneficiaries in the case of accidents at work or professional sickness. In previous years employers were obliged to insure their employees with insurance agencies for cases of accidents at work and, therefore, data on the number of accidents at work were incomplete. Since 2002 monthly reports of primary health care doctors have been used for that purpose because it is them who will first be contacted in the case of the accident at work. Data on days of sick leave due to accidents at work for 2008 are presented at the newly established Croatian Institute for Health Protection at Work.

2) Pursuant to the Labour Act (NN, No. 38/95), in 2000 and 2001 the right to the maternity leave lasting up to the child's three years of age was granted only to mothers who gave birth to twins, third or each subsequent child, while since April 1996 the same right has also been granted to unemployed mothers starting with the day of a child's birth. In the year 2002, women were granted a paid maternity leave up to the child's two years of age if they gave birth to twins, triplets, quadruplets or more children of the same age. Unemployed mothers have a right to compensation during a six-month period for every born child. Since July 2004, pursuant to the Amendments to the Labour Act, Maternity Leave Act and Health Insurance Act, the rights to use maternity leave up to 3 years of a child's age in case of the birth of twins, third and each subsequent child have been re-established for all beneficiaries, irrespective of whether it refers to a mother in employment, unemployed mother or self-employed mother (NN, Nos. 30/04 and 31/04). Unemployed mothers have a right to compensation up to one year of a child's age. Also, the right to a shortened working time has been re-established (half-time work) up to three years for persons in employment, excluding unemployed and self-employed mothers.

3) Since 1 May 2006 the Ordinance on orthopaedic devices and prosthesis has been in use (new endorsement method).

4) Pursuant to the Articles 2 and 7 of the Amendments to the Health Insurance Act (NN, No. 90/05) persons insured with the Health Insurance Institute from 1 October 2005 are no longer entitled to funeral expenses reimbursement while their rights to reimbursement of travel expenses have been limited. The rights to reimbursement of travel expenses in connection with health care have been restored since 3 August 2006 with the introduction of the Compulsory Health Insurance Act.
